Safer Internet Day 2018

[Safer Internet Day 2018](#) will take place on Tuesday 6th February with the theme 'Create, Connect and Share Respect: a better internet starts with you.'

Celebrated globally and coordinated in the UK by the [UK Safer Internet Centre](#) the campaign sees hundreds of schools and organisations join together to raise awareness of online safety issues and run events and activities right across the UK.

As a result of this collective action [Safer Internet Day 2017 reached 3 million children](#) and 2 million parents across the UK.

Join the campaign to make Safer Internet Day 2018 the biggest yet!

Schools, companies, police services, charities and other organisations across the UK are invited to get involved in the campaign to inspire the safe and positive use of technology.

Last year over a thousand organisations supported the day, and you can now [register as a Safer Internet Day 2018 supporter](#) to share what you are doing to support the day.

The UK Safer Internet Centre has provided [ideas for getting involved](#) and over the coming months will be sharing a range of resources to help you get involved, including educational resources and films.

Right now you can get involved by helping to [spread the word](#) to any schools and organisations who could get involved on the day.

Plans for 6th February

On the day, the campaign will create a huge buzz right across the UK and globally!

There will be national youth events, activities in schools across the UK, media coverage, a day of trending on social media, companies will spread the word to customers and employees, as we all aim to reach as many children and families across the UK as possible.

Together we can make a positive difference

As a result of hearing about Safer Internet Day 2017, an [evaluation](#) found that the majority of children spoke to their families about staying safe online while 79% felt more confident about what to do about any worries online. As a result of the day, 1 in 4 young people said they spoke up about something that had been worrying them online.

Together we can make #SID2018 the biggest campaign yet and make a real difference to the digital lives of children right across the UK.
