

SNOWMAN

There's nothing like the feeling
When you jump from bed
And the world's all white
Like a fancy loaf of bread
You've just one thought
A-buzzing round in your head!
You're gonna build a snowman.

You gobble up your porridge
At a record rate
Then you step outside
And the world is looking great
You pick up a shovel
Cos you simply can't wait!
You're gonna build a snowman.

You add all the things that make him come to life
A carrot for a nose
A hat and umbrella will protect the little fella
When the cold wind blows.

There's nothing like the feeling
When you jump from bed
And the world's all white
Like a fancy loaf of bread
You've just one thought
A-buzzing round in your head!
You're gonna build a snowman
A little snowman
A little snowman
