

Science

Our topic in science this half term will be learning all about plants and what they need to grow.

We will:

- Plant bulbs and seeds
- Learn about what plants need to grow.
- Conduct experiments with runner beans to observe how they grow.
- Learn about the life cycle of a bean plant.

Year 2 Curriculum Map Autumn 1

Maths

We will be covering:

- Place value
- Addition, and subtraction

We will be practising our arithmetic skills and our 2, 5 and 10 times tables on a weekly basis.

Geography

Our topic is all about exploring our world and learning about the similarities and differences between the UK and Tanzania.

We will:

- Explore the continents, hemispheres and oceans
- Learn about physical and human features in the UK and in Africa
- Compare different climates and what life is like.
- Learn about the vocabulary town, city, country and continent.
- Explore our local area using maps.

Literacy

We will be using Talk for Writing to learn the structure of and then write:

- A rescue story based on Billy the Brave Knight.
- A recount based on a newspaper report.

RE and PSHE

The children will be learning about Jewish celebrations in RE.

In PSHE we will be learning 'Being me in my world' including themes of values, respect and community.

PE

Wednesdays and Fridays with Mrs Wales.
We will be doing football and hockey.

Art/ DT

This term we will be completing a DT project all about making fruit kebabs!
